Organization Chart

About Us

A company specialized in the field of firefighting, fire alarm, and safety, approved by the Civil Defense, having many engineering staff and specializations in fire protection and designing of firefighting systems in accordance with the standards of the Saudi Building Code SBC and the International Building Code NFPA

Our vision

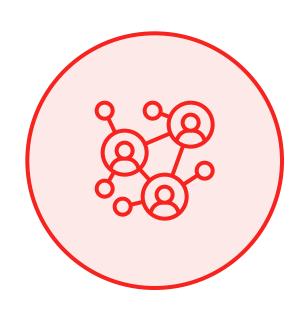

We seek to be among the leading companies in the field of firefighting systems, designing firefighting systems as per the standards of international & local codes, and creating job opportunities for engineers within the Saudi labor market.

Our values

Access to our clients

To reach our customers with our high quality services

Quality and care

The work is delivered with the highest quality standards & adherence to the most important international safety requirements

Satisfaction of our customers is our goal

Meeting the needs & aspirations of our customers and be committed to them

Our services

A simplified description of the scope of our work in the field of fire-protection

Our services

Supply & installation of firefighting systems

Supply & installation of all fire alarm systems

Supply & installation of Life
Safety & Smoke management
systems

Supply & installation of clean gas firefighting systems

Supply & installation of all kitchen hood systems

Supply & installation of Aersol Stat-X systems

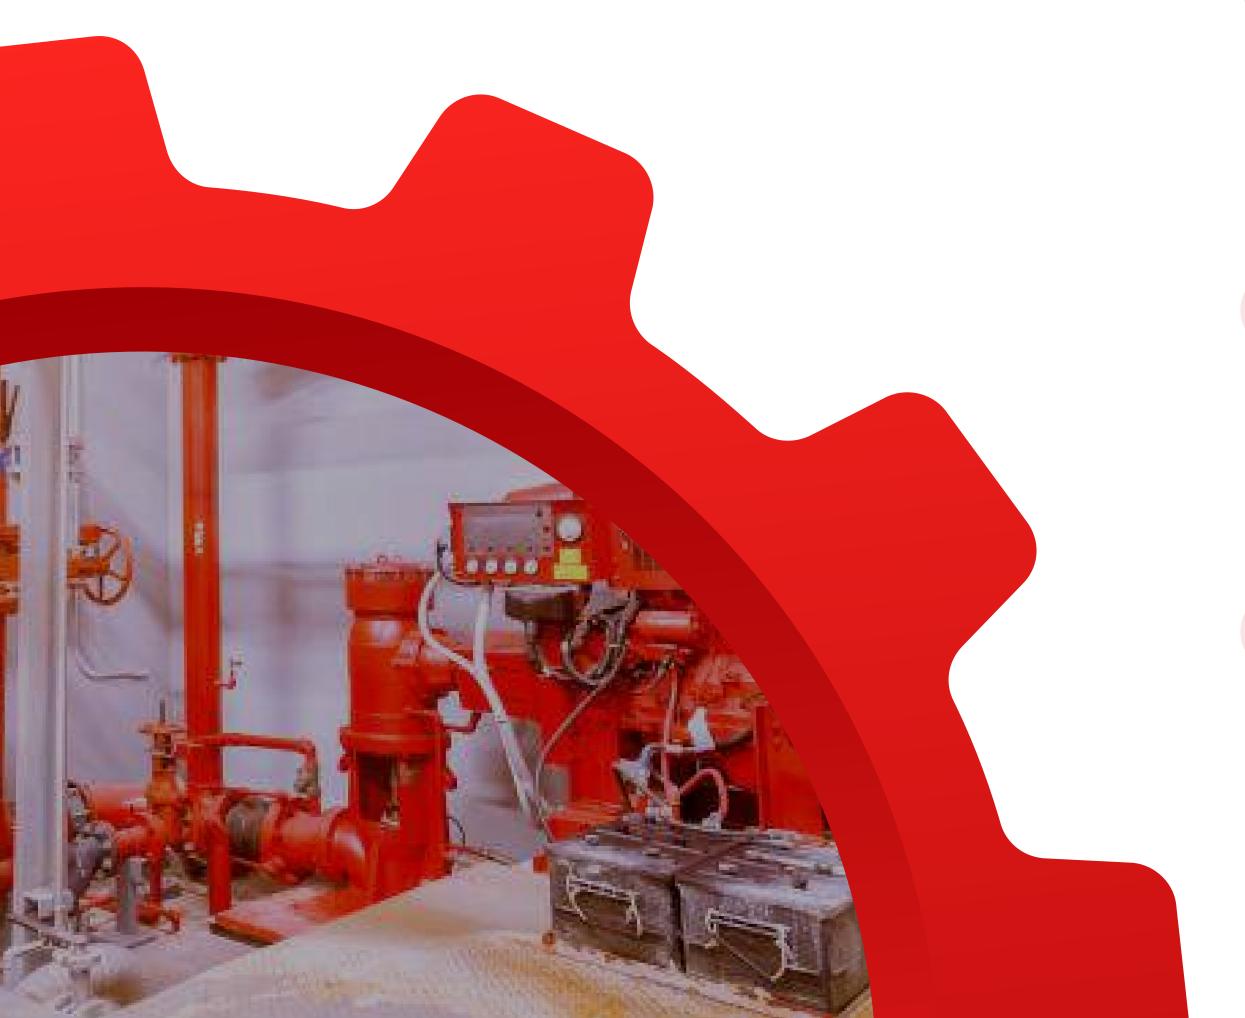

Supply & installation of firefighting systems

- 1 Supply & installation of automatic sprinkler networks

 Supplying and installing fire sprinklers of all kinds according to different applications with the installation of a zone control valve in accordance with the fire code (NFPA 13)
- 2 Supply & installation of Standpipe firefighting networks
 Supply and installation of manual fire extinguishing using fire boxes,
 military fire, civil defense connection in addition to (Landing Valve)
 according to the fire code (NFPA 14)
- Supply and installation of all types of horizontal and vertical reciprocating fire pumps with the entire set of valves in accordance with the fire code (NFPA 20)

Supply & installation of fire pumps

Supply & installation of all fire alarm systems

(Addressable & Conventional)

Supply and installation of fire alarm networks and systems according to the requirements of the Civil Defense (addressed and unaddressed systems)

Extension of fire alarm piping and cables with installation of all network components and programming according to the fire alarm code (NFPA 72)

Maintenance and programming of multiple fire alarm systems in existing buildings

Checking and restarting all alarm systems and linking them to other systems

Supply & installation of Life Safety & Smoke management systems

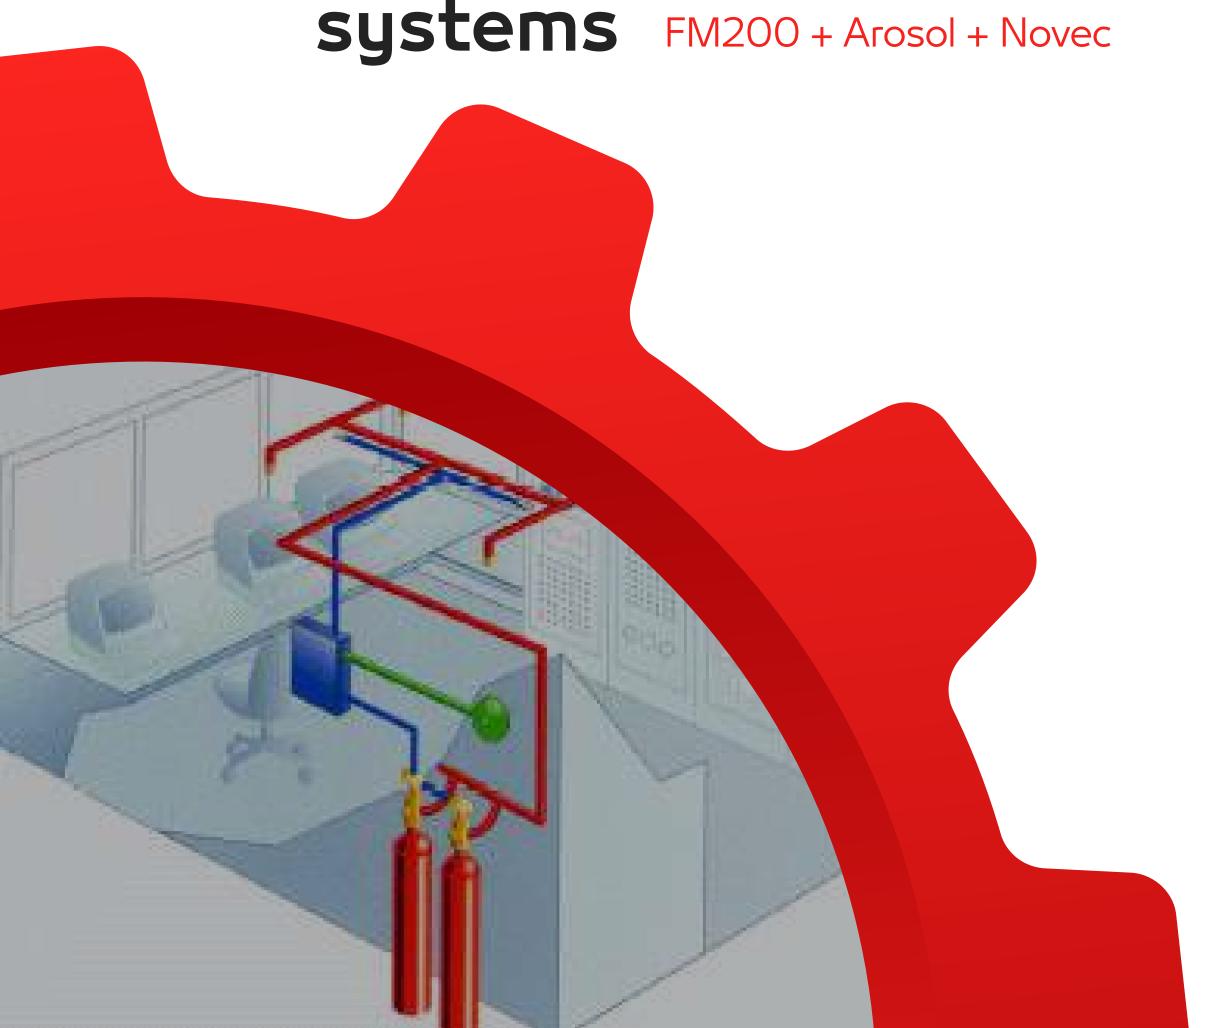

- 1 Supply & installation of emergency doors

 Installation of emergency doors with all its accessories and all its
 components certified to fire resistance (UL)
- 2 Supply and installation of emergency exits, lighting fixtures, smoke extraction systems and compressor fans
 Installing the Duct works for smoke extraction systems and compressor fans and linking them with the alarm system

Supply & installation of clean gas firefighting

1 Supply & installation of the mechanical work network for the gas extinguishing system

Installing iron pipes with pieces and connections and connecting them to the cylinder and the gas nozzle

2 Supply & installation of the alarm network for operating the system

Installing a gas degassing panel with control devices and connecting it to the cylinder to effect the degassing process

- Maintenance and refilling of gas cylinders

 Dismantling and installing the cylinder and refilling it with the type of gas required
- Supply and installation of liquefied gas and natural gas LPG networks

Installing galvanized iron pipes with their valves and connecting them to the used gas tank

Supply & installation of all kitchen hood systems

1 Supply and installation of single or double kitchen firefighting systems

Installation of galvanized iron pipes with gas discharge nozzles

2 Maintenance and refilling of insulin cylinders used in extinguishing kitchens

Unpack and install the cylinder and refill it with the wet chemical

Supply & installation of Aerosol Stat-X systems

- 1 Supply & installation of stat-x electrical type installation of stat-x electrical type with detaction systems as bear (NFPA 2010)
- 2 Supply & installation of stat-x thermal type

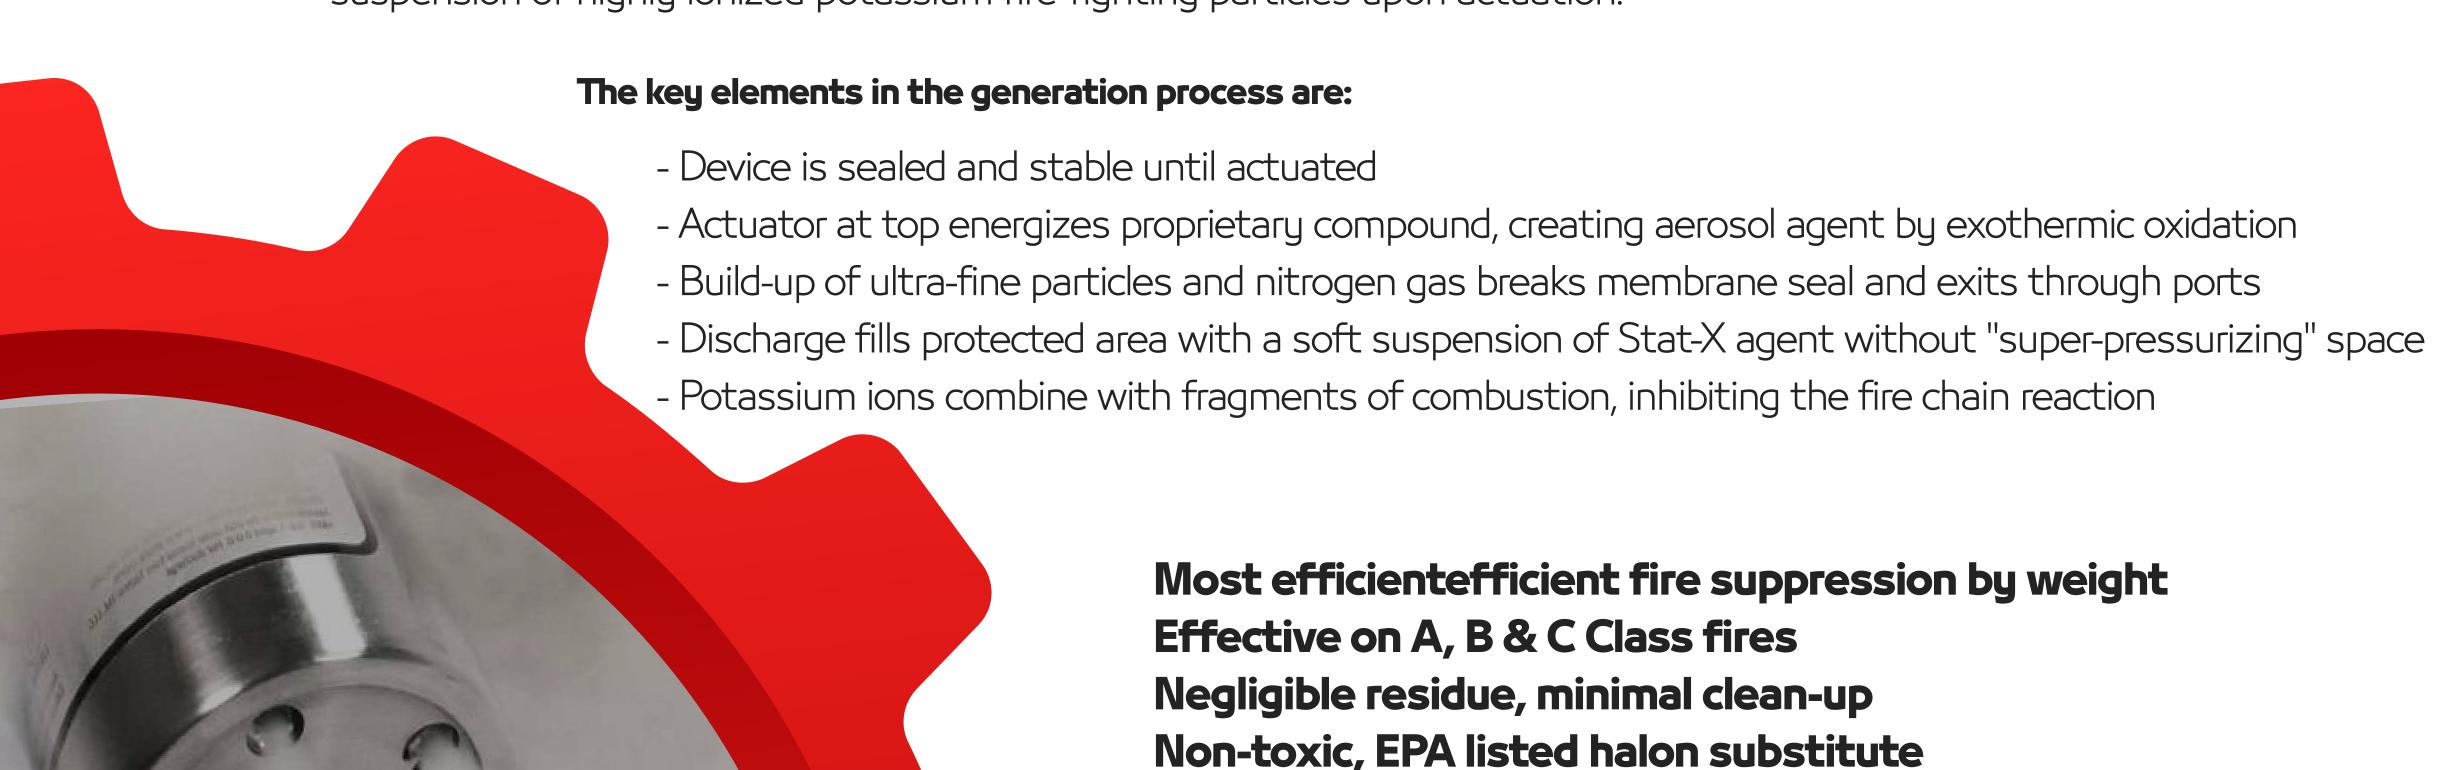

Installation of stat-x thermal type with thermal head

3 Design & Calculation for aerosol systems

Our Smart Product Stat-X

Stat-X devices are termed condensed aerosol agent generators because they generate an ultra-fine suspension of highly ionized potassium fire-fighting particles upon actuation.

Our Other Services

(Plumbing& Irrigation Works)

Supply and installation of underground piping (water supply, Drainage & main irrigation Systems)

Supply and Installation of above ground piping (water supply& Drainage)

Supply and installation of Water supply & Irrigation Valves

Supply and installation of plumbing Equipment (Pumps, water heaters & water filters)

Supply and Installation of Sanitary Wares and plumbing specialists

Supply and installation of underground piping (water supply, Drainage & main irrigation Systems)

- infrastructure work according to local and international Codes, complete with pressure
- leakage and gravity tests as per Project's specifications

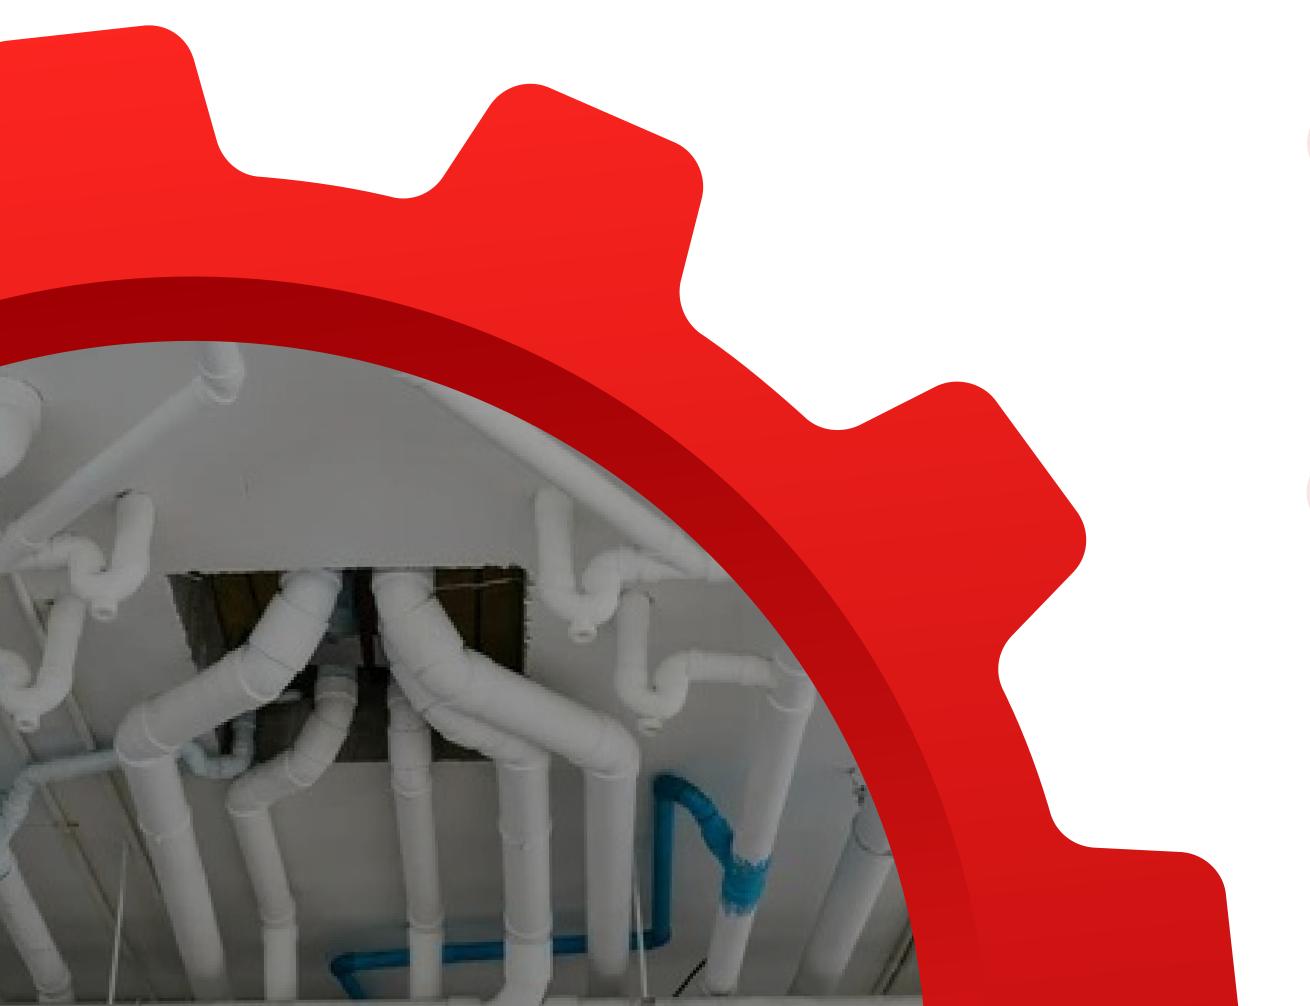

Supply and Installation of above ground piping (water supply& Drainage)

for main pipes, toilets, pantry & all kind of wet areas insulated or not according to local and international codes, complete with pressure

2 leakage and gravity tests as per Project's specifications

Supply and installation of Water supply & Irrigation Valves

above and under ground as per project specifications and international codes

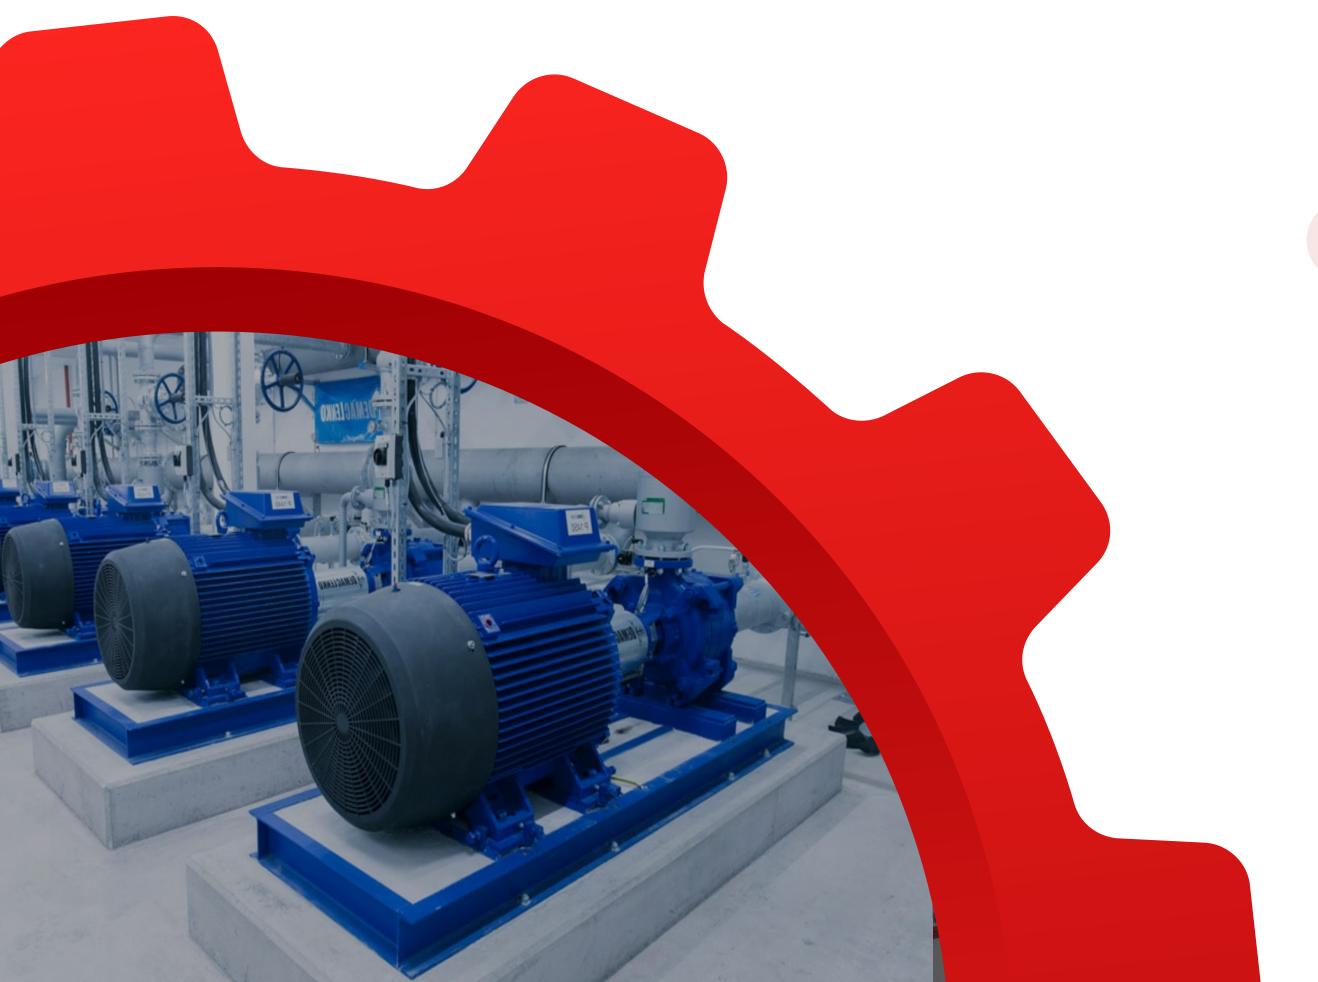

Supply and installation of plumbing Equipment (Pumps, water heaters & water filters)

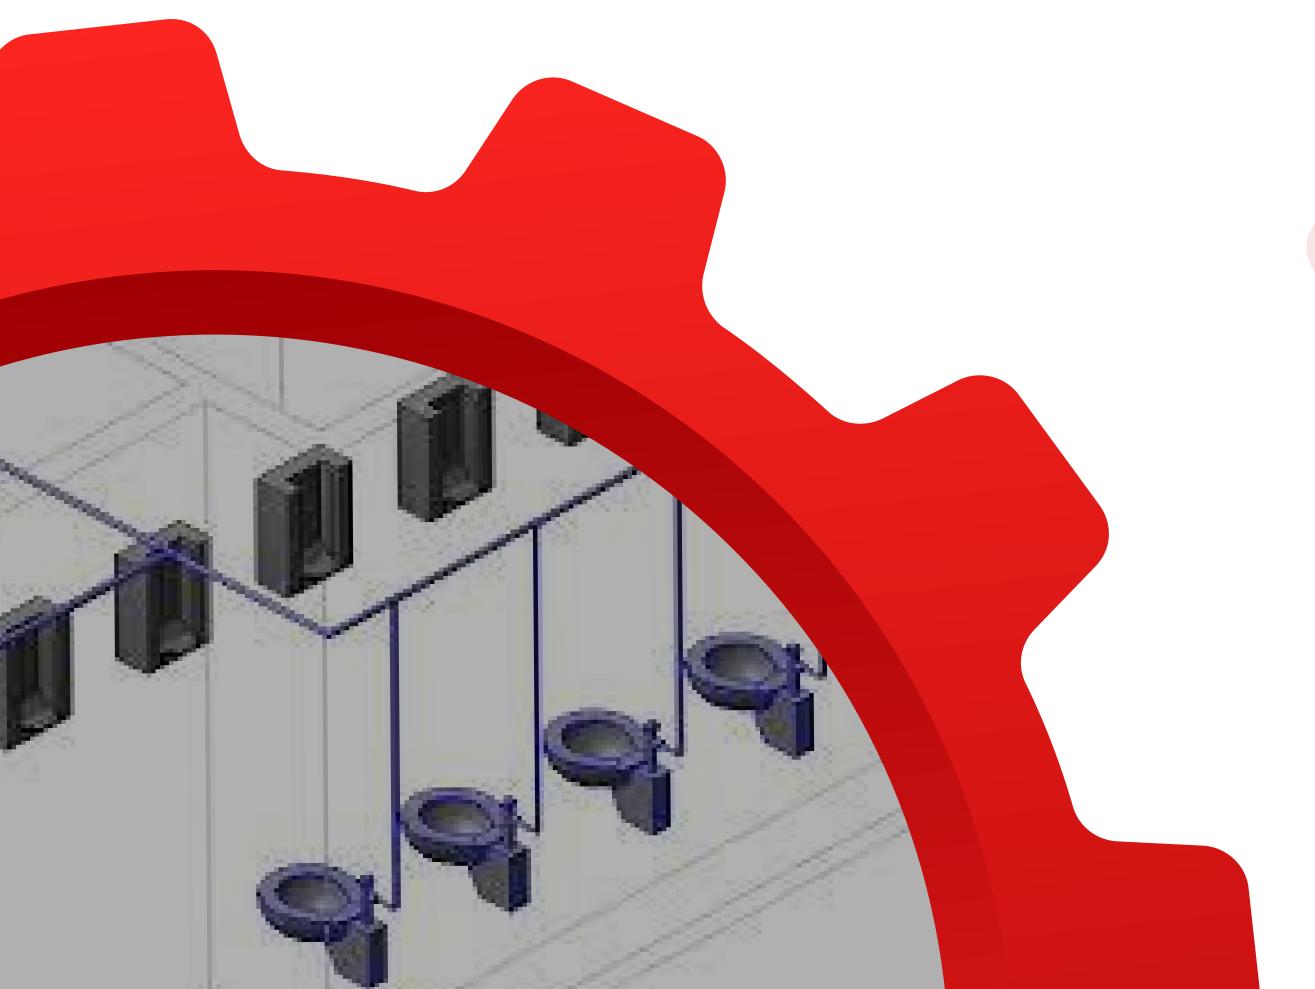

according to local, international code & as per project specifications

Supply and Installation of Sanitary Wares and plumbing specialists

1 including all third fix works as per local, international codes and project specifications

Approvals

Names of companies, commercial establishments & accredited locally and internationally
